Consumer preferences are changing. They expect unique and convenient packages that make it easier to prepare and enjoy food more quickly. As the need for higher performance packaging grows, plastic packaging is quickly replacing cans and jars as the preferred format for ready to eat foods. Plastic packaging provides a safer, lightweight, portable, and easy to use format at home or on the go.

**POUCHES**

Provide higher food quality and update your product’s image using Printpack’s film and pouches designed for shelf stable and refrigerated applications. With a number of material options, we can tailor a package to meet your shelf life requirements, so you can deliver a safe, great tasting product to your consumer. Pouches are a cost effective alternative to bottles, jars, and cans and come in a variety of sizes suitable for busy consumers.

**LIDDING**

Complement your rigid cup or tray with easy-peel lidding. These roll-fed lids are designed to perform in a variety of processing conditions. Our barrier lidding options utilize unique sealant material that provides easy-peel for consumers and high burst strength for package integrity. Lidding films are optimized for seal performance to our rigid cups and trays.

**RIGID CUPS, TRAYS, AND ROLLSTOCK**

Barrier rigid plastic packaging is lightweight, portable, and easy to use at home or on the go. For consumers, it’s safer than cans or glass because there are no sharp edges and no breakage. It’s also microwaveable for convenient heat-and-eat occasions. It’s imperative that your rigid packaging performs to the highest level to preserve the flavor and quality of your food. With multilayer coextrusion technology and experience spanning decades, Printpack can help deliver your food as intended to the consumer.

**PACKAGING SOLUTIONS FOR THESE PROCESSING TECHNOLOGIES:**

- Aseptic
- Hot-fill
- Pasteurization
- Retort
- MATS (Microwave Assisted Thermal Sterilization)
- HPP (High Pressure Pasteurization)
Printpack develops innovative packaging solutions that deliver a distinct advantage at the shelf, strengthen brand identity in the minds of consumers and help brand owners optimize speed-to-market strategies. Packaging innovation plays a critical role in influencing the way consumers value, choose, and use products.
